

NEW OPPORTUNITY

Contracts Manager

The Casey Group is well established within the construction and environmental sectors and operates through five main divisions. Our activities span construction, land reclamation, public realm and environmental works, developments, and plant hire and service.

We are seeking to appoint an experienced Contracts Manager (Land Rec) due an influx of recent tender wins in the Sheffield area and other imminent work. Successful candidates must understand, uphold, and communicate the values and culture of the Casey Group.

The successful candidate will have overall responsibility for multiple construction projects and manage construction teams in delivering a consistent service to time, safety, quality, and cost, ensuring clients expectations are met in full and contract performance targets realised.

The successful applicant will demonstrate a successful track record in Contract Management within the Land Reclamation and Civil Engineering environment.

- Maintain and control financial aspects of a project and assist in the delivery of the business unit's profit plan in line with the company's requirements.
- Consider tender prelim against actual requirements and evaluate and monitor the expenditure monthly with the site team.
- Continually carry out value engineering exercises and promote best practice within the company.

We offer a wide range of benefits including a competitive salary as well as a generous contributory pension scheme, life insurance and private medical insurance.
